

Glycol Feed Systems

- Automated glycol feed systems in all shapes and sizes
- Customized control and interface options
- BACNet® and MODBUS® functionality
- High-temperature systems
- Flexible pressure ranges and motor sizes

Bypass, Filter and Bromine Feeders

- Safe and reliable introduction of chemicals into a closed-loop system
- Standard sizes ranging from 1-18 gallons
- Pleated, bagged and high-capacity filter models
- Standard models rated to 300 PSI @ 200°F
- FRP, carbon steel, 304 and 316 stainless steel models available

Mixers

- Portable liquid mixers from 1/20hp to 5hp
- Applications from 30 to 5,000 gallons @ 2,000 CPS
- Adjustable mount assemblies
- Optional epoxy coating for increased chemical resistance
- Stainless propellers and impellers or neoprene impeller options

Sample Coolers and Sludge Traps

- Available with stainless steel, alloy 600 or copper sample tubing
- Pressure ratings up to 1500 PSI at 600°
- Sludge traps remove sediment to prolong the life of the sample cooler
- Rugged construction with fixed or removable coil options
- Maximum cooling at minimal cost

Separators

- Separates various solids without the use of filter media
- Removes equipment-damaging solids down to 40 microns with flow rates from 8-13,900 GPM
- Low maintenance with Wingert Purge Package
- Significantly reduces fouling

Boiler Chemical Feed Systems

- Steam and hot water applications
- Protects against corrosion
- Low maintenance pump
- Reduces boiler scaling
- Packaged unit for easy installation
- Multiple sizes and configurations

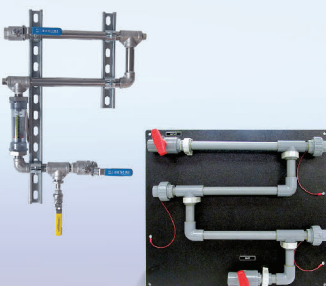

Separator Systems

- Standard flow rates from 38 GPM to 1,200 GPM
- Includes 90 TDH pump, pre-strainer, separator, recovery tank and a NEMA 4 control panel
- Low maintenance method of basin filtration
- Motorized purge options
- Reduced water usage

Tanks and Tank Stands

- Standard tank volumes ranging from 3 to 500 gallons
- Tank stands up to 500 gallons
- Customized mounting options for pumps and mixers
- Integral one-piece design for increased efficiency
- Round and Square Double-Wall Tanks available for containment

Corrosion Coupon Racks

- Accurate corrosion monitoring
- PVC, CPVC, carbon steel and 316 stainless steel options
- Standard racks with one to six coupon holders
- Custom configurations and material options
- Flow valve and strainer options

J.L. Wingert Co. Custom Systems

- Custom systems made-to-order
- Applications ranging from modern chemical processing plant use to sophisticated manufacturing facility applications
- Over 55 years of custom system fabrication

J.L. WINGERT CO.

PROUDLY DISTRIBUTING

- Controlled-volume metering pumps
- Outputs up to 300 GPH
- Pressures up to 1,000 PSI
- Tank and pump accessories
- Chemical resistant pump housings
- Optional liquid handling configurations
- Flexible controller options
- Maximize process efficiency

ARO®

WILDEN®

Diaphragm Pumps

- Air-operated, diaphragm pumps from 1/4" to 3" pipe sizing
- Electronic interface pumps and controllers
- Piston pump packages
- Filters, regulators and lubricators
- Pneumatic valves and cylinders for high flow or compact designs
- Sanitary pump offerings

Blue-White Industries, Ltd.

- FLEXFLO® peristaltic pumps
- CHEM-FEED® diaphragm pumps
- Variable area flowmeters
- All-in-one chemical metering systems
- Exclusive TFD® (Tube Failure Detection) patented system

MYRON L COMPANY

- Digital handheld meters
- Portable instrumentation
- In-line monitors and controllers
- Standard solutions and buffers
- Proprietary temperature compensation
- Resistivity and pH meters
- Bluetooth connectivity

+GF+ SIGNET

- Multiparameter instrumentation
- Electric valves and actuators
- Engineered liquid flow piping systems
- Automated measurement control
- Custom fabricated system solutions
- FM approved products for fire protection

HORIZON WATER CARE PRODUCTS

- NSF/ANSI certified feeders and chemicals
- Flow rate treatability from 50 to 7,000 gpm
- Residue-free feeder operation
- Consistent chlorine feed rate tablets
- Brominating and septic tablets

Seametrics

- Water flow meters with 4-20 mA and pulse output
- Turbine and magnetic flow meters
- Insertion flow sensors
- NSF61 and IP68 rated
- Multiparameter configurations with data logging

GRISWOLD CONTROLS

- Automatic flow limiting valves
- 2-way and 3-way actuated ball valves
- Combination actuated ball valves
- Coil piping packages and hose kits
- Irrigation piping packages
- Combination air vent and pressure temperature test valves
